

Dear Sir/Ma'am,

Are You Worried About the Challenges for Compliance Tracking & Monitoring?

As You Know Failure of Any of the Non-Compliances Can Lead To:

Huge Penalties.....

Time Wastage.....

Losses....

Stress...

And many many more.....

Challenges	Solutions
Multi location compliance monitoring is a challenge	How if, sitting at any location, you can monitor compliance for all locations
Multiple people handling different compliance issue – how to ensure timely submission is a challenge	What if you could track all responsible person's compliance status at one go
No mechanism to give alerts to meet the deadline is a challenge, need to maintain files	How if, you could see your own alerts and other employees compliance alerts on a single click
Defining requirements every time increases manual work	What if, a solution, gives you an option to define compliance only single time for years to come
Documents submitted is lost some times in files and folders	What if, if you can upload your file into a system for future references
Not able to see compliance MIS company wise, location wise and person wise	What if a system gives you MIS on all the combinations of your choice like company wise, location wise, authority wise etc.
Timely check of the compliance issues done on time could not be possible, as it involves lot of manual and paper work	What if a solution gives you a chance to control all the compliance to be done on time without any loss of information and ensure no penalty and delays
For all Challenges One Solution	ComplianceMantra
