Compliance Mantra 
A WAY TO MANAGE COMPLIANCES

About Compliance Mantra

Compliance Mantra is a unique software solution to monitor the day to day compliance issues and helps in boosting the accountability and responsibility by an effective governance. The software reduces the risk and removes the uncertainty of missing out of any compliance issue and thus help avoid the huge penalties and fines. The software has significant features that set it apart, from the conventional way of managing and monitoring Compliance.

Have Alerts, Get Alarm For Non-Compliance

Key Features

- It's a generic tool- the users can define their own compliance
- Management can control compliance through internal targets as well as through due dates
- Can allocate clear responsibilities to every user who is doing the compliance for the company
- Documents are easily available in soft copy just by a single click
- Multi companies / locations / users compliances can be added at one place
- Alerts helps management by exception
- Internal team can share the comments for reviews and corrections if needed
- Effective reporting / MIS helps in preventive / corrective decision making

Key Benefits

- Generate your own compliance as per your business standards
- Create your own target dates besides the due dates for every compliance issue
- Allocate your internal department & your responsible person for each compliance issue
- Attach documents relating to the actual compliance done, with every compliance issue
- The architecture enables concurrent multi companies / locations / users
- Alerts for compliance against target dates /due dates
- Team collaboration where management can view the team compliance status
- Strong MIS reports of compliance
